

Give it a chance, skateboarding can change your life!

The Yorkton skateboard school will teach the basics of skateboarding in a number of small classes. These classes will be held for beginners of the sport and those looking to try something new and fun. The purpose of the skateboard school is to teach the fundamental and innovative skateboarding techniques in a safe controlled environment and to promote an active and healthy lifestyle.

With a high class indoor facility including a cement park and 12ft high vert ramp, we make skateboarding possible during these long winter months and available all year round.

129 Myrtle Ave, Yorkton, Saskatchewan
(306) 782-3629
